The Southwestern Advertiser is the
 name of a new paper at Nogales, which
 is published daily, with A. P. Craw-
 ford as editor.

The atrocious intensity of gripe is
 such that the person in doubt as to
 whether he has had it, can safely make
 affidavit that it has never touched him.

NEBRASKA furnishes a rather unique
 sample of dilatory justice. A convict
 has just been granted a new trial, but
 investigation showed that he had serv-
 ed his sentence and only wanted to be
 let alone.

THE New York Life Insurance Com-
 pany have recently pensioned William
 H. Beers, for the past twenty-five years
 the president of that company, which
 he gives up and retires on a pension of
 \$25,000 for life.

ONE of the Phoenix editors has been
 sued by his wife for a divorce on the
 grounds of failure to provide. The Ga-
 zette is of the opinion that any woman
 fool enough to marry an Arizona editor
 ought to starve.

THE national democratic committee
 has appointed Colonel Richard G.
 Bright, of Indiana, to be sergeant-at-
 arms at the national democratic con-
 vention, and F. E. Canada to be agent
 for the committee.

EVERY town has its history of lost op-
 portunities, and if Flagstaff does not
 take advantage of the opportunity to
 induce the Southern Pacific railroad to
 build its Phoenix branch to this place
 they will ever regret it.

A DISTINGUISHED London practition-
 er says that victims of la gripe should
 observe total abstinence from alcoholic
 beverage, while a distinguished New
 York practitioner advises the use of
 such stimulants. This leaves an open-
 ing for patients to consult their respec-
 tive tastes, a thing that they are very
 liable to do in any event.

THE people of Tucson are circulating
 a petition asking the Governor to re-
 move William Zeckendorf from the
 position of World's Fair Commissioner,
 for the reason that he has taken up his
 residence in another state and cannot
 represent Arizona. If this is the case,
 Mr. Zeckendorf had ought to have the
 good sense to resign and relieve the
 Governor of a disagreeable duty.

THERE is nothing so healthful in this
 world as a cheerful heart and a disposi-
 tion to look on the rosy side of every-
 thing. Trouble is not a physical ail-
 ment, but a mental condition. It is
 hard on the brain, hard on the body,
 and hard on your friends. A clear
 conscience, a brave heart and a healthy
 liver mean a long and happy life. It
 is the mistake of the age to worry and
 fret over things that cannot be helped
 or hopes that cannot be realized. Laugh
 at trouble and it vanishes.

THE result of the decision of the
 United States Supreme Court declaring
 the anti-lottery law unconstitutional
 has caused John A. Morris, the prin-
 cipal owner and director of the Louisi-
 ana lottery, to give notice that he in-
 tends to withdraw his application for a
 new charter of the company, and that
 the concern will wind up its affairs
 and retire from business when its
 charter expires, in 1894. This ends
 forever the great lottery war which has
 been waging for some time past, and
 which has brought about a split in the
 Democratic party in Louisiana.

It seems that some of the Republi-
 can papers in the southern portion of
 the territory are of the opinion that
 the main object of Col. George Christ's
 trip through Northern Arizona was not
 to organize leagues, but to further his
 candidacy as delegate to the Minneap-
 olis convention. Beyond making the
 statement that he would be a candi-
 date for delegate to the National con-
 vention Mr. Christ did nothing. The
 Republicans of Northern Arizona are
 not likely to take up the fight of any
 member from the southern portion,
 and they regret that there should be
 any ill feeling in party ranks in that
 section.

THE Supreme Court of California has
 just decided in the matter of pay-
 ment of the salaries of deputy officials out
 of the county treasury. The law there
 provides as it does here for the pay-
 ment of officials only. By the decision
 referred to, officers who appoint deputy
 officials will be required to pay them out
 of their own salaries. The court held
 that in effect it was a raise in the sal-
 ary of the official when the law pro-
 vides that there shall be no increase in
 compensation during his term of office.
 There is such a law on the Statutes of
 Arizona, and no doubt the California
 decision will form a precedent in simi-
 lar cases in Arizona.—Phoenix Herald.

THE young ladies of the St. Louis
 Normal School refused to appear the
 other morning without corsets in order
 to allow a male physician to take their
 physical measurement.

THE United States has 40 per cent.
 of the total railroad mileage of the
 world, and is building faster than any
 other country. This is a very swift
 and progressive nation.

THE democrats of the House, it is
 understood, favor the admission of Ar-
 izona and New Mexico to statehood,
 but desire to keep Oklahoma out. Their
 attitude on this question is determined
 altogether by partisanship. New Mex-
 ico and Arizona are Democratic, while
 Oklahoma is republican. The average
 intelligent, unbiased person will con-
 cede that Oklahoma has at least as
 good claims to admission as New Mex-
 ico has, and infinitely better than Ar-
 izona possesses. Moreover, the chances
 are that Oklahoma will come in early
 as either of these.—Globe Democrat.

In the local columns to-day will be
 found a list of patents received at the
 Prescott land office. It is worthy of
 note as an illustration of the prompt-
 ness with which the work of the gen-
 eral land office is being performed un-
 der the present administration, that the
 final certificate was issued to James
 W. Thurber, the last named in the list,
 on September 16, 1891. His final proof
 was forwarded to the general land
 office October 3rd with the monthly re-
 turn from the local office and could
 not have reached there before the 9th
 of that month. As the patent is dated
 January 11, 1892, only three months
 elapsed between the receipt of final
 proof and issuance of patent. This is
 in pleasing contrast to settlers and
 claimants of land to the dilatory meth-
 ods in vogue under President Cleve-
 land's administration when it required
 as many years to obtain a patent after
 final proof was made.—Journal-Miner.

THE United States Supreme Court
 declares that the Anti-Lottery law
 passed by the last congress, is constitu-
 tional. In deciding the case, which
 was that of an editor charged with
 sending lottery advertisements through
 the mails, the Court held that the pow-
 er vested in congress to establish post
 offices and post roads, embraced the
 regulation of the entire postal system
 of the country, and designated what
 may and what may not be excluded;
 the power granted congress is complete
 and carried with it the power to forbid
 the use of the mails in the aid or per-
 petration of crime or immorality. The
 court says it must be left to congress,
 in the exercise of sound discretion, to
 determine what shall be excluded.
 There is no abridgement of the freedom
 of the press, for the reason that the
 government does not prohibit commu-
 nication by other means, but simply
 through government agencies which it
 controls.

ACCORDING to the Mining Record the
 year 1891 proved a fairly good one for
 the business of mining on the Pacific
 coast, the output of bullion, estimated
 at \$130,000,000 being the largest ever
 made. Of this production California
 made about \$13,000,000; Montana \$28-
 000,000; Colorado, \$30,000,000; Idaho,
 \$14,000,000; Washington, \$1,000,000;
 Oregon, \$1,200,000; Alaska, \$800,000;
 British Columbia, \$500,000; South Da-
 kota, \$3,200,000; Wyoming, \$100,000;
 New Mexico, \$4,500,000; Utah, \$10-
 000,000; Nevada, \$10,000,000; Arizona,
 \$6,500,000. Of the bullion turned out
 in California, Wyoming, Oregon, Da-
 kota, and British Columbia about 90
 per cent. consisted of gold, balance
 mostly silver. The Nevada bullion
 was made up of about 65 per cent. sil-
 ver, 35 per cent. gold, while that of
 Utah was nearly all silver, with a
 sprinkling of lead and gold. Arizona's
 product consisted of about 20 per cent.
 gold, balance divided nearly equally
 between silver and copper. The bul-
 lion of Idaho and Washington was com-
 posed of about 35 per cent. gold, re-
 mainder silver and lead with a little
 copper. The Montana bullion consisted
 of about \$4,000,000 gold, \$16,000-
 000 silver and the rest copper, but little
 lead being produced there while that of
 Colorado was subdivided nearly as fol-
 lows: \$5,000,000 gold, \$20,000,000
 silver, balance lead with a little copper.

WASHINGTON LETTER.

[From our Regular Correspondent.]

WASHINGTON, Feb. 6, 1892.

President making is always one of
 the favorite occupations in Washing-
 ton, and recent events have added a
 special zest to it. Senator Hill is
 given the credit, whether rightly or
 not I do not pretend to say, of having
 made a combination with Senators
 Gorman and Brice to control the Dem-
 ocratic nomination, which Mr. Hill
 wants himself if he can get it, but fail-
 ing in that he wants a hand in naming
 the man, and his second choice is un-
 derstood to be Gorman, and his third
 "some good Western man." Senator
 Hill found a congenial atmosphere
 from the first among the Democratic
 Senators, most of whom are bitterly
 anti-Cleveland in their sentiments, and
 until his recent New York coup he ap-
 peared to be rapidly growing in popu-
 larity, but now fears are expressed by
 those friendly to him that he has gone
 too far in so openly showing his hand

as the manipulator of the Democratic
 machine in that state. No one can
 deny that he is one of the shrewdest
 political wire pullers that this country
 has produced, but that very fact may
 prevent securing the nomination of his
 party, as has often been the case with
 wire pullers of the past.

Evidently the Senate Committee on
 Foreign Relations think the present
 Chinese laws sufficient for all practical
 purposes, as it has reported adversely
 all of the bills introduced providing
 new and more stringent laws, and pre-
 sented a substitute in the shape of a
 bill to continue the present anti-Chinese
 laws for a period of ten years.

Senator Kyle made his debut as a
 Senatorial orator in a set speech in
 favor of his joint resolution proposing
 an amendment to the Constitution giv-
 ing Congress authority to enact uni-
 form marriage and divorce laws for the
 whole country.

The Farmers' Alliance members of
 Congress are wielding considerable in-
 fluence in that body. They have, aided
 by a rapidly growing public sentiment
 in favor of the change, caused the
 House committee on the Election of
 President and Vice-President to decide
 to report favorably a bill for a Consti-
 tutional amendment providing for the
 election of Senators by popular vote,
 but their greatest triumph in which
 they were ably aided by the influence
 of all the labor organizations, was to
 compel Representative Oates of Ala-
 bama, chairman of the sub-committee
 of the Judiciary committee which re-
 cently adversely reported Representa-
 tive Watson's resolution for an investi-
 gation of the Pinkerton detective agen-
 cies, to ask the full committee to re-
 commit the resolution to the sub-com-
 mittee for further consideration as to
 the jurisdiction of Congress.

Lobbyists representing the great cor-
 porations of the country here are much
 exercised over the decision of the
 House Judiciary committee to favor-
 ably report the bill which makes a cor-
 poration a citizen of the state in which
 it carries on business, for all judicial
 purposes.

The House having adopted an amend-
 ment to the rules compelling the sev-
 eral committees to report all of the
 appropriation bills within eighty days
 after the announcement of the com-
 mittees at the long session, and within
 forty days after the opening of the
 short session, the committees will have
 to do some lively hustling to comply
 therewith, as they have hardly begun
 work on any of them yet and the time
 within which they should be reported
 will expire on the 13th of March.

So many Democratic members of
 Congress refused to be bound by the
 decision of the caucus which was to
 have been held last night on the silver
 question that the caucus was given up,
 and with it the idea of making the free
 coinage of silver a party question was
 abandoned, for the present, at any
 rate. As announced some time ago,
 the House coinage committee will next
 week authorize a free coinage bill to
 be favorably reported to the House.
 Next week the Senate finance commit-
 tee will also act on Senator Stewart's
 free coinage bill, and the action will
 probably be unfavorable.

The Democrats of the House have at
 last succeeded in getting their code of
 rules adopted, after the debate which
 seemed to be aimlessly stretched out
 had become so tiresome to the mem-
 bers that most of them kept off the
 floor to escape it. The question now
 is, what next? And nobody seems to
 be in a position to make an authoritative
 answer. If there be men of command-
 ing power in the Democratic ranks in
 the House they will have a great op-
 portunity to make reputation in the
 near future by assuming the leadership
 and showing the country that the ma-
 jority of the House is no longer adrift.

To the Public.

 of Daggs Bros. was on the 28th of

"August Flower"

There is a gentle-
 man at Malden-on-
 the-Hudson, N. Y.,
 named Captain A. G. Pareis, who
 has written us a letter in which it
 is evident that he has made up his
 mind concerning some things, and
 this is what he says:
 "I have used your preparation
 called August Flower in my family
 for seven or eight years. It is con-
 stantly in my house, and we consider
 it the best remedy for Indigestion,
 and Constipation we
 have ever used or
 known. My wife is
 troubled with Dyspepsia, and at
 times suffers very much after eating.
 The August Flower, however, re-
 lieves the difficulty. My wife fre-
 quently says to me when I am going
 to town, 'We are out
 Constipation of August Flower,
 and I think you had
 better get another bottle.' I am also
 troubled with Indigestion, and when-
 ever I take one or two tea-
 spoonfuls before eating, for a day or
 two, and all trouble is removed."

"HERE'S TO YOU."

As good as you are and as bad as I am; but as good as you
 are and as bad as I am, I'm as good as you are, bad as I am.

That is a famous toast. The sentiment, with a little perversion, can be
 adapted to the grocery business. For instance, we can say to our rivals in
 the field; As good as your groceries are, ours are just as good, and as bad as
 yours may be, ours are never bad. We do not say that our competitors never
 have good goods or that they are not just as honest as we are. We can only
 speak for ourselves—and that we wish to do generously and impressively, but
 truthfully: If you buy groceries of us you will be pleased in every particular.

I am plodding along and taking life just
 as easy as I can. Am selling good straight
 goods for cash at a moderate profit, and I
 find it a first-rate way to do business and
 keep my trade. I don't aim to become rich
 in one year. Have no particular extra bang-
 up bargains to offer; no old stock on hand;
 no wife at present (I am sorry to say) to
 blow in my wealth (she's visiting her relatives
 east.) No book accounts to worry over. If
 there is anything that will fret a merchant
 and keep him full of grief, it is old book ac-

 Tom's account is good when it rains; Jack's
 when you get it, and the Devil's is no good,
